X X-POS

Run your whole business from one screen.

POS billing, multi-branch stock, your own online store, staff payroll and profit reports — built in Sri Lanka by AizoTech.

THE PROBLEM

Most shops run on five disconnected tools.

- Bills in a book or a basic billing app
- Stock counted by hand or in Excel
- A website or Facebook page that doesn't know what's in stock
- Cash per branch only known at month end
- Salaries, attendance and EPF/ETF in a notebook

The cost

Lost sales from out-of-stock items, mistakes between branches, hours of re-typing — and no clear answer to "how much did we actually make today?"

THE SOLUTION

X-POS: one system, six modules, one login.

01

Point of sale

Billing, barcodes, thermal bills, credit sales

02

Stock

Per branch, per colour, with full history

03

Online store

Your web shop with PayHere, Koko and COD

04

Staff & payroll

Attendance check-in, salaries, EPF/ETF

05

Money & reports

Money Book, profit, VAT, item-wise sales

06

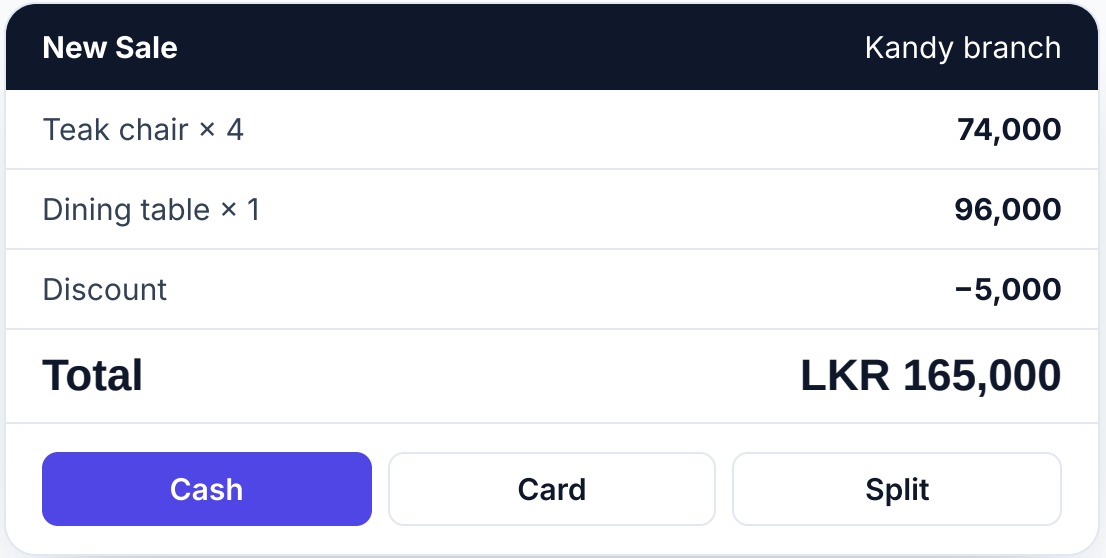

Dealers & team

Dealer pricing approvals, chat, notifications

POINT OF SALE

Fast at the counter. Correct on paper.

- Scan a barcode or search — the bill builds itself
- 80mm thermal bills, A4 invoices, emailed PDFs
- Split payments, credit sales and outstanding recovery
- Quotations, discounts, warranty printed on the bill
- Print your own EAN-13 barcode labels

STOCK & BRANCHES

Know what's on every shelf, in every branch.

- Stock per branch and store location
- Every movement recorded — sale, transfer, adjustment
- Colour and variant stock, with photos
- Low-stock filters and sold-out handling

Branch control

Owners see everything. Branch staff see only their branch — stock, sales and the Money Book for cash in and out.

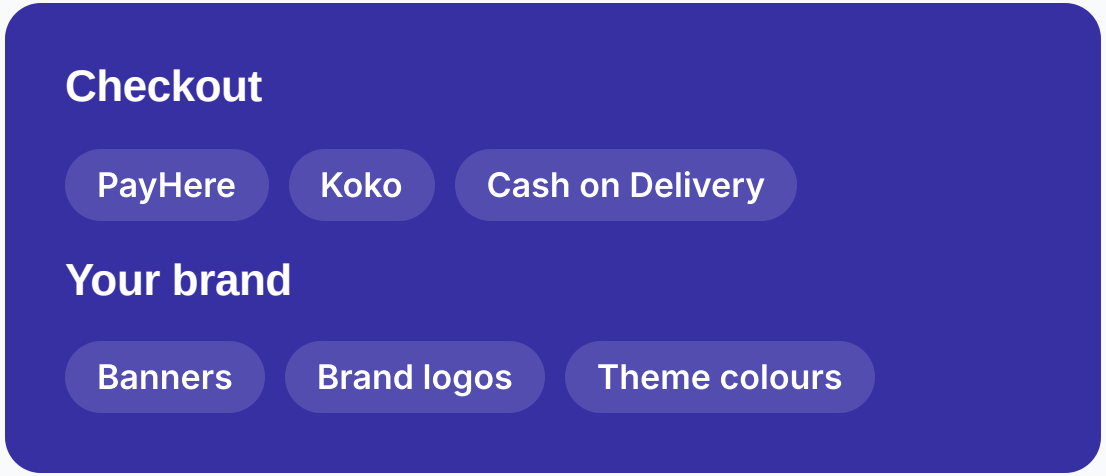

Role-based access

Per-branch Money Book

ONLINE STORE INCLUDED

Your shop and your website, finally connected.

- Products, prices and stock come straight from the POS
- Customers pay by card (PayHere), in 3 (Koko) or cash on delivery
- Delivery charged by province and district, automatically
- New orders alert in the POS — pack, label, ship

STAFF, MONEY & REPORTS

The back office, without the paperwork.

Staff & payroll

- Employee records
- QR + location check-in
- Salary payments
- EPF / ETF report

Money

- Money Book per branch
- Other expenses
- Bank details
- Dealer price approvals

Reports

- Day-wise & net profit
- Item-wise sales
- VAT / tax & expenses
- Profit overview dashboard

WHY X-POS

Built for how Sri Lankan businesses actually work.

Sinhala-ready

Bills and invoices print Sinhala correctly. Demos and support in Sinhala or English.

Local payments

PayHere, Koko and cash on delivery — the way Sri Lankans pay online.

Your own instance

Each business runs on its own separate system and database — no shared data.

Set up for you

We load your products, branches and users, and connect your printers.

GETTING STARTED
